

Qualitative Form

- 1. Were the fields present in the TEI-IoT easy to understand?**
 - a) Very easy
 - b) Easy
 - c) Medium
 - d) Difficult
 - e) Very difficult
- 2. Do you think TEI-IoT allowed you to identify faster requirements compared to not using it?**
 - a) Yes, totally
 - b) Yes, most of the time
 - c) Indifferent
 - d) No, most of the time
 - e) No, not at all
- 3. How did TEI-IoT help you elicit requirements?**
 - a) Bad. My performance would have been better if I haven't it
 - b) Neutral. I would meet the same requirements if haven't used it
 - c) Good. I might not have identified some requirements if I hadn't used it
- 4. In your opinion, what makes using TEI-IoT easy/difficult?**
- 5. Do you believe that the approach can be improved to make its use simpler? How?**
- 6. Did you feel the need for any additional support in the use of TEI-IoT?**
 - a) Yes
 - b) Maybe
 - c) No
- 7. If "yes" or "maybe", what kind of support?**
- 8. Do you consider that the TEI-IoT helps during the elicitation of the requirements? If "yes" or "no", why?**
- 9. Would you use TEI-IoT to elicit requirements in other domains of IoT software systems?**
 - a) Yes
 - b) Maybe
 - c) No
- 10. Record all the points you judge negative for the template**
