PARTICIPANT CHARACTERIZATION FORM

Survey: "TEl-IoT: Template to Elicit IoT Software System Requirements"

Dear Sir, the form below will be used to understand how familiar you are witheliciting software requirements and the Internet of Things.

1.   Academic education:

a) Software Engineering
b) Information systems
c) Computer engineering
d) Analysis and systems development (ADS)
e) Other

2.   What is your experience in Requirements Elicitation and Specification?

a) No notion
b) I participated in projects only in classroom
c) I have notions of use of one or more techniques of elicitation
d) I participated in projects industrial for 1 year or more

3.   What is your experience in software development?

a) No acting in the area
b) Less than a year
c) I participated in projects only in the classroom
d) I participated in industrial projects for 1 year or more

4.   How much do you know about IoT software systems development?

a)   Not familiar with the area
b)   Low familiarity with the area
c)   Average familiarity with the area
d)   High familiarity with the area

5.   How do you rate the degree of difficulty in applying the TEI-IoT?

a)   Very easy
b)   Easy
c)   Medium
d)   Difficult
e)   Very difficult
